

User documentation

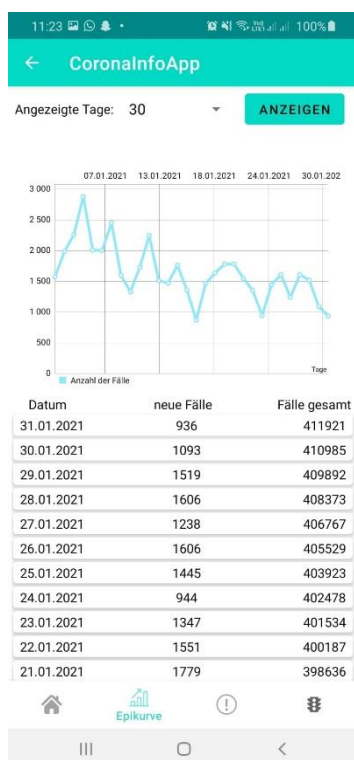

Main Screen

This is the first screen which is shown when opening the app. When clicking the **GESUNDHEITSNUMMER** Button, the health number (1450) gets automatically dialled.

When either one of these buttons  is clicked, the language is changed to German or English depending on which one of the two was pressed.

It can also be switched here between lightmode and darkmode by turning the switch  .

Here it can be switched between the different screens by using the bottom navigation  or clicking one of the three buttons at the centre of the screen.

Epikurve

On this screen the user can see how many new cases as well as total cases were on the different days since the beginning of the Covid19 pandemic. The most recent entries can be seen at the top and when scrolling down the older ones are shown.

Additionally, the new cases are presented in a line chart. The user can choose here from a drop down  how many days should be shown in the line chart. If then the **ANZEIGEN** button is clicked the line chart gets updated. The value containing the number of days shown gets saved and if the app is reopened the chart shows the amount of days which was shown before closing the app.

It can be switched between the different screens by using the bottom navigation  or by clicking the  arrow in the menu to return to the main screen.

Beschränkungen

On this screen the users can see the current limitations. Additionally, the user can click the magnifier icon  and then type in a key word which they are searching for and then click the  button to show the result. If the first result matches not what they are searching for, just click the  button again and the next result is shown.

Further, it can be switched between the different screens by using the bottom navigation  or by clicking the  arrow in the menu to return to the main screen.

Ampelfarben

On this screen the user can scroll through the view to get information about what the different Covid19 traffic light levels mean.

It can be switched between the different screens by using the bottom navigation  or by clicking the  arrow in the menu to return to the main screen.
